If you're having trouble with your hearing, you're not alone. Hearing aids can make it better.¹

15%

of the world's adult population has some degree of hearing loss²

75%

of adults with hearing loss are 65 years and younger²

95%

of people with hearing loss can benefit from using hearing aids³

Don't miss a word with **Stride**

From background chatter in a restaurant to traffic on a busy street, each conversation comes with its own unique background noises. Stride™ hearing aids will get you back in the conversation, even in the most challenging listening situations. And, since they are designed for you, it's easy to find a Stride that feels just right.

Totally comfortable

Your Stride custom hearing aids are precisely designed to fit the unique shape of your ear for a discreet fit that's comfortable to wear all day long.

Designed for you

Stride hearing aids fit seamlessly into your life, with volume control and program buttons that are easy to find and very simple to use. Plus, they come in a variety of colors to match your skin tone.

Listening is easy

With Stride hearing aids, listening is always natural and comfortable, phone conversations are easier to understand and music is pure enjoyment.

Enrich your hearing

Ask your hearing healthcare professional how accessories work with your hearing aids to make listening even better.
